## **FAIRMONT HERITAGE PLACE ACAPULCO DIAMANTE / ACAPULCO, MEXICO**

■ The property's sleek, contemporary design is fused with traditional Mexican elements to create a natural, yet luxurious retreat. SFA focused on the seamless transition between indoor and outdoor space, using bold, yet minimalistic fixtures to accentuate the architectural lines based on the ideas of Luis Barragan, who has worked to give the Mexican hacienda a fresh up-to-date design.

By combining indigenous materials such as dark tropical woods and pebble flooring with an array of modern accents, the interior design spreads warmth and continuity through each interior space. Details such as sculpted light fixtures and glass furnishings, all produced by modern Mexican artists, compliment the clean lines of the villas.

■ The Fairmont Heritage Place Acapulco Diamante stands out as an extraordinary and dynamic

**Sue Firestone**  
President

property among the plethora of resorts that decorate the Mexican coastline. Sold as a private residence club, the property offers a unique opportunity to enjoy vacation living. Every

detail was thoughtfully chosen, emphasizing the characteristics of ocean, earth and garden to create an atmosphere unlike any other.

- Time to complete: 2-3 years
- Overall cost: More than \$20 million
